What is Disability Income Insurance?

Disability Income Insurance is designed to protect one of your most important assets - your income. About Disability Income Insurance

What is Total Disability?

Total Disability, until you have qualified for monthly income benefits for 12 months, means you are unable to do the essential duties of your own occupation. Total Disability, after the first 12 months during which you qualified for monthly income benefits, means you are unable to work at any occupation that you are or could reasonably become qualified to do by education, training, or experience.

You will be considered totally disabled if you become disabled as a result of injury or sickness and such injury or sickness requires regular treatment by a qualified physician, other than yourself.

ACCIDENTAL INJURY	A bodily injury caused by an accident resulting in Total Disability. All injuries sustained in connection with one accident will be considered one injury.
SICKNESS	An illness, disease, physical condition, or pregnancy.

If you are injured in an accident but do not become totally disabled for more than 180 days because of your injury, the disability will be treated as a sickness. Total disability must occur while you are insured under this policy.

Is there a benefit paid for Mental or Nervous conditions?

To collect total disability benefits for mental or nervous conditions, or alcoholism, you must be continually confined in a hospital or treatment facility specializing in treatment of those conditions.

If “Total Disability” is due to the treatment of a mental or nervous disorder, or alcoholism, the insurance company will, while you are institutionalized, as defined by the group policy, pay the applicable disability benefit commencing with the first day after the applicable waiting period or the first day you are institutionalized, whichever is later.

In no event, shall the disability benefit be payable for any period beyond the maximum period for sickness as stated in the Schedule of Benefits.

Are recurring disabilities covered?

If you are disabled due to the same sickness or injury, you can still receive full benefits under this policy as long as the incidents are separated by less than 90 consecutive days of active, full-time employment.

Are there any exclusions or limitations?

Regular Care - A disability that does not require a doctor's regular care of, or attendance to, the insured; or any period of disability for which the insured is not under the regular care and attendance of a doctor. This requirement will not apply if such care is no longer required for prudent medical management of the injury, sickness or organ donation.

A disability that is due to or related to an intentional self-inflicted injury or occurs while intentionally injuring oneself; while the sane or insane.

A pre-existing condition is any condition for which you have consulted with a physician, or have received medical treatment or services, or have taken prescribed drugs or medicine during the 90 day period immediately before the effective date of your insurance. Benefits will not be paid for a total disability caused by a pre-existing condition unless: You have gone 90 consecutive treatment-free days, completed on or after the effective date of this insurance; You have been insured by this policy for 12 months, an injury or sickness is classified as an impairment restriction.

Benefits are not payable for disability income insurance for losses resulting from:

- Intentionally self-inflicted injuries;
- Sickness or injury which occurs in an act of war; Sickness or injury which occurs while you are on military service for any country while you are insured;
- Injury for which a contributing cause was your omission or attempt to commit a felony or for which a contributing cause was your engagement in an illegal occupation;
- Sickness or injury resulting from your occupation and for which you receive benefits under a Workers' Compensation Act or similar law;
- Mental or nervous disorders, or alcoholism, except as specifically provided in the applicable benefit; The use of any narcotic, unless administered on the advice of a doctor.

How much does it cost?

Members under age 65 are eligible for exclusive rates based on salary and age, and are conveniently paid through payroll deduction. The initial cost of insurance for a member is based on attained age when insurance becomes effective and the amount of insurance applied for. The cost increases as the member grows older. Premium contributions will vary depending upon the options chosen.

If during a period of total disability, you are unable to perform the essential duties of your own occupation on a full-time basis but engage in some work that may be considered rehabilitative, you may receive a reduced monthly benefit from this coverage equal to your monthly benefit less 50% of your gross monthly earnings from such work. There is a minimum benefit of \$50 a month under this provision. Please see limitations and exclusions on page 5 for more information. The benefit will be paid for a period not to exceed 36 or 120 months after the waiting period.

How to Calculate Your Biweekly Cost*

Use the correct column to find the current insurance cost for member coverage.

(Note: the amount billed may differ slightly due to rounding.)

The premium contributions shown reflect the current rate and benefit structure. Premium contributions may be changed by New York Life Insurance Company on any premium due date (but not more than once in any 12-month period) and any date on which benefits are changed. However, your rates may change only if they are changed for all others in the same class of insureds under this group policy. For example, a class of insureds is a group of people all with the same issue age and tobacco/nicotine use. Benefit option amounts are not guaranteed and are subject to change by agreement between New York Life Insurance Company and the Trustee of the NGAUS.

IMPORTANT NOTICE: The plan administrator relies upon enrollment and salary information received from the National Guard Civilian Pay Input Sites to determine the biweekly premium to be payroll deducted. If the Input Site has not provided updated age or salary information as regularly requested, your premium deduction may not be accurate per the premium table in the group policy. Any claim for benefits may be adjusted on a pro-rata basis, based on the premium deducted versus the required premium, in accordance with the above-referenced table.

Meet Tom

Tom and his wife lived a busy life filled with work and taking care of their two children. At the age of 52, Tom suffered a back injury. At first his symptoms were mild but as time went on his symptoms progressed, Tom was no longer able to work.

Fortunately, Tom was covered under the **NGAUS Disability Income Insurance**, which provided him with benefits to replace a portion of his lost income while he was unable to work.

This allowed the family to stay in their home and helped pay their everyday expenses while coping with Tom's declining health.

\$ 0	Tom's monthly income while on Disability
- \$ 1,100	Mortgage payment
- \$ 300	Utilities
- \$ 300	Grocery expenses
- \$ 400	Medical expenses
- \$ 200	Other (insurance, gas, entertainment, etc.)
- \$ 2,300	Monthly expense deficit
+ \$ 700	Tom's Basic disability benefit
+ \$ 800	Tom's Supplemental disability benefit
+ \$	Tom's other income (spouse income, social security, etc.)
\$	Left over for unexpected expenses or savings

This is a fictional scenario to illustrate some of the benefits of Group Disability Insurance.

Estimating your Disability Income coverage needs

Many factors determine the amount of coverage you need. Use the below worksheet to help you get started. Keep in mind that it is for educational purposes only; you may want to consult with a financial expert when making a decision related to the amount of Disability coverage you need.

How much will you need monthly if you become disabled? Are there items you could cut back on?

1. Mortgage or rent payment, utilities	\$
2. Every day expenses like food, clothing, gas, parking, dependent care, etc.	\$
3. Medical costs (doctor visits, lab work, prescription drugs, etc.)	\$
4. Insurance premiums (life, auto, home, etc.)	\$
5. Debt payments (credit cards, student loans)	\$
6. Other expenses	\$
7. Estimated total monthly expenses (add items 1-6)	\$

How much will you earn while you are disabled?

8. Spouse's monthly income (if applicable)	\$
9. Employer sick pay	\$
10. Disability Insurance payments (state program, individual policies, etc.)	\$
11. Income from savings/investments	\$
12. Child/spousal support	\$
13. Other sources of income (family, friends, home equity loan, etc.)	\$
14. Estimated total monthly income (add items 7-13)	\$
15. Estimated total monthly income (line 14)	\$
16. Estimated total monthly expenses (line 7)	- \$
17. Estimated monthly surplus or shortage (subtract line 16 from 15)	\$

Based on your estimate above, if you became disabled and lost the ability to earn a paycheck, you would have _____ (line 17) to live on each month. If you have more expenses than income (a negative number), you likely need Disability Income coverage to provide financial protection.

The coverage provided by the NGAUS Disability Income Policy can make a significant contribution to your financial well-being. Depending on your personal financial circumstances, you may need to supplement this coverage with additional Disability Income coverage to meet your specific needs. For more information, consult your financial professional.

NOTE: This is an estimate of your income, expenses and benefits and does not directly represent benefits to which you may be entitled. Disability Income benefits may be offset by other income and by other benefits related to your disability.

Effective Date

You and your dependents will become insured on the first day of the pay period, the date specified by New York Life Insurance Company provided, satisfactory evidence of insurability has been submitted, and you and your dependents are alive on that date.

Coverage for any dependent who is hospital confined at home, in a hospital or other medical institution or incapacitated so as to be unable to perform his or her normal activities on the date coverage would otherwise become effective will not become effective until the date her or she is no longer so confined or incapacitated, provided you are insured on that day and the dependent is still eligible for insurance.
